

EchoVera and APMC Consulting partnership strengthens Accounts Payable solution offerings for Canada's SAP customers

Toronto, ON (March 1, 2012 - Document automation specialist EchoVera Inc. and APMC Consulting, an enterprise software consulting firm specializing in SAP information lifecycle management and accounts payable automation solutions, have formed a partnership to offer Canadian SAP customers complete sales, implementation, and support services for the entire ReadSoft SAP AP automation solution.

EchoVera has long been dedicated to helping private and public sector clients of all sizes streamline business processes and enhance productivity through the implementation of comprehensive Accounts Payable solutions. APMC Consulting has years of experience working with clients in a wide variety of industries to automate SAP financial and document management processes.

"Our partnership with APMC consulting now provides Canadian customers extensive document capture and SAP AP automation experience and the opportunity to achieve significant measurable cost-savings and efficiency gains. We do this by simplifying the daily processing of supplier invoices, purchase order matching and AP related documents", says EchoVera president Ralf Leitner.

Philippe André, APMC Consulting president, said: "Our partnership with EchoVera is another step forward in enabling Canadian SAP customers to eliminate paper and view invoices electronically. With our flexible deployment options, our customers can implement AP Automation solutions that let them gain greater processing control and better track invoices throughout the cycle".
